

### **Tray Crack + License Keygen Free**

Tray is an application that allows users to quickly open and close optical drives, and therefore safeguard their personal belongings. It is mainly designed with an emphasis on keeping things simple, and therefore doesn't carry any configuration settings or advanced features. Using Tray, you can quickly open or close your optical drive by clicking a few buttons present on its main panel. It is important to mention that Tray has been specifically designed for helping people open and close optical drives, and supports up to two optical drives. If the tab toolbar is set to the right position, the opening and closing buttons will appear in the left side of the main panel. By default, Tray supports pressing the Enter key to start the task, but it is also possible to change this option by tapping on the blue text that appears next to the buttons. The buttons can be moved to any position of the main panel, and are designed to be a familiar and easy-to-use interface. The job can be achieved using a few mouse clicks, and no special skills are required to use it on any kind of device. The fact that it doesn't carry any configuration settings means that it can be installed and configured by all types of users, even beginners. Tray doesn't have any pre-installed window theme, and you won't have to deal with any kind of troubles while using the program. The setup package doesn't comprise any files other than what is needed to perform the task. Hence, you can download and use the program without any complications. Features: Tray has two simple options: open and close your optical drive. Moreover, it also supports the configuration settings for all the supported devices. You can set the current path where the program will open the drive, and further optimize its performance. Moreover, Tray features the following options: In general, Tray supports other devices such as optical drives,

---

removable media, RAM sticks or CDs/DVDs. It also has a built-in tool that can be used to find out all removable media drives present on the computer. The program's directory can be set to a custom path. Tray supports the following OS platforms: Windows 7 (32/64-bit) Windows 8 Windows 8.1 (32/64-bit) Windows 10 (32/64-bit) Tray can be used using the integrated Web browser, and you

### **Tray Crack [Latest 2022]**

Tray Full Crack is a lightweight desktop enhancement application built specifically for helping users open or close their optical drive without having to manually press the PC button. This Windows tool was designed with an overall simplicity in mind, and allows you to carry out all operations using a few clicks. The main panel can be moved to any area of the screen. The program boasts a simple and minimalistic layout that gives you the possibility to open or close the optical drive by pressing the corresponding built-in buttons. It is important to mention that the utility offers support for up to two optical drives, and you can select the desired one directly from the main panel. Since it doesn't comprise any configuration settings, even rookies can master the process with minimum effort. Although it hasn't been updated for a while it works without flaws even on newer operating system. During our testing we have noticed that Tray carries out a task quickly, and no errors showed up throughout the entire process. As it would be expected from such a small utility, it remains light on system resources, so it doesn't burden the overall performance of the computer, nor interfere with other programs' functionality. To sum things up, Tray offers a simple yet efficient software solution when it comes to helping you open or close your optical drive using only a few mouse clicks. Thanks to its overall simplicity, it can be installed and configured by all types of users, regardless of their experience level.
